🔍 Priority Number: 1991-05-31 JP1991000156084

🔍 Abstract: PURPOSE: To obtain a medicated cream, containing an extract substance of Glycyrrhizae Radix, an extract solution of Phellodendri bark and further, as necessary, an extract solution of Sophora angustifolia Sieb. et Zucc. and effective for allergic disease, especially for dermatitides induced by the contact with materials such as metals, cosmetics or Japanese lacquer.

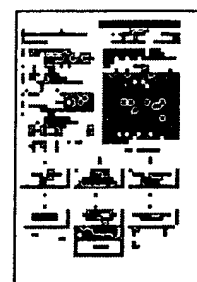

CONSTITUTION: A medicated cream containing 0.05-0.5% extract substance of Glycyrrhizae Radix consisting mainly of glycyrrhetic acid, 1-10% extract solution of Phellodendri bark and further, as necessary, 1-10% extract solution of Sophora angustifolia Sieb. et Zucc. Synergistic effects are exhibited by combining respective abilities of antiinflammatory action of the extract from the Glycyrrhizae Radix, wound surface curing promoting action and antiinflammatory action of the extract from the Phellodendri bark based on the astringent antiinflammatory action with berberine, alkaloids, etc., and ulcerogenic preventing ability of matrine which is a main alkaloid in the extract solution of the Sophora angustifolia Sieb. et Zucc., responding ability, etc., to skin infectious diseases, together with their individual effects.
